

About me

CREATIVE MARKETING _ GRAPHIC DESIGNER _ ILLUSTRATOR

Hi!, I'm Han Tran,

I'm a creative individual with a background in digital marketing, graphic design, and years of making illustrations.

I love making things. Small things, big things, weird things that mean something.

I believe art can be anything that carries meaning or makes you feel emotions. That's what draws me to creativity in the first place, is to be able to take an idea, a feeling, or even a tiny detail and turn it into something people can see and connect with.

I'm currently seeking work in Creative Marketing, Social Media, Content Creation, Illustration, Graphic Design, and other creative roles where I can bring ideas to life.

BLACKLIST is an Discord gaming community founded by a group of close friends, built around gaming, socializing, and community events.

My role

My role is to create the visual identity and branding of the Discord server, from its overall aesthetic to graphics and community visuals.

Tools used

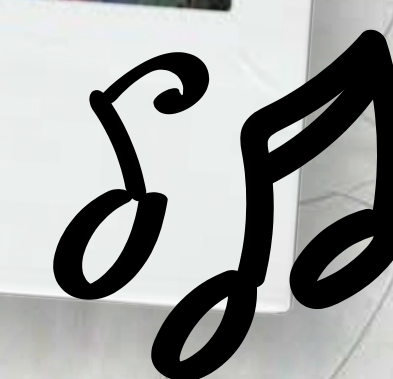

Adobe Photoshop, Adobe Illustrator

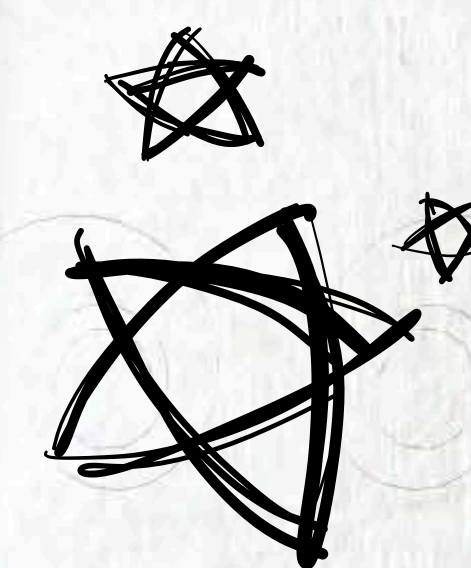

Đêm Hội Trăng Nhỏ (2025)

Trung Thu (Mid-Autumn Festival) is a special celebration for children, a day to gather and play, to enjoy a joyful night together under the full moon.

I painted the artwork with gouache and pastel on paper, then adapted it into a visual concept for a Vietnamese primary school's Trung Thu celebration event.

Voyager (2023)

A fan art of my favourite character from the game Reverse1999.

Voyager is not human, she is a humanized celestial body that harmonizes with the universe. She observe the vast open space and play music for the planets.

Digital painting on Adobe Photoshop,

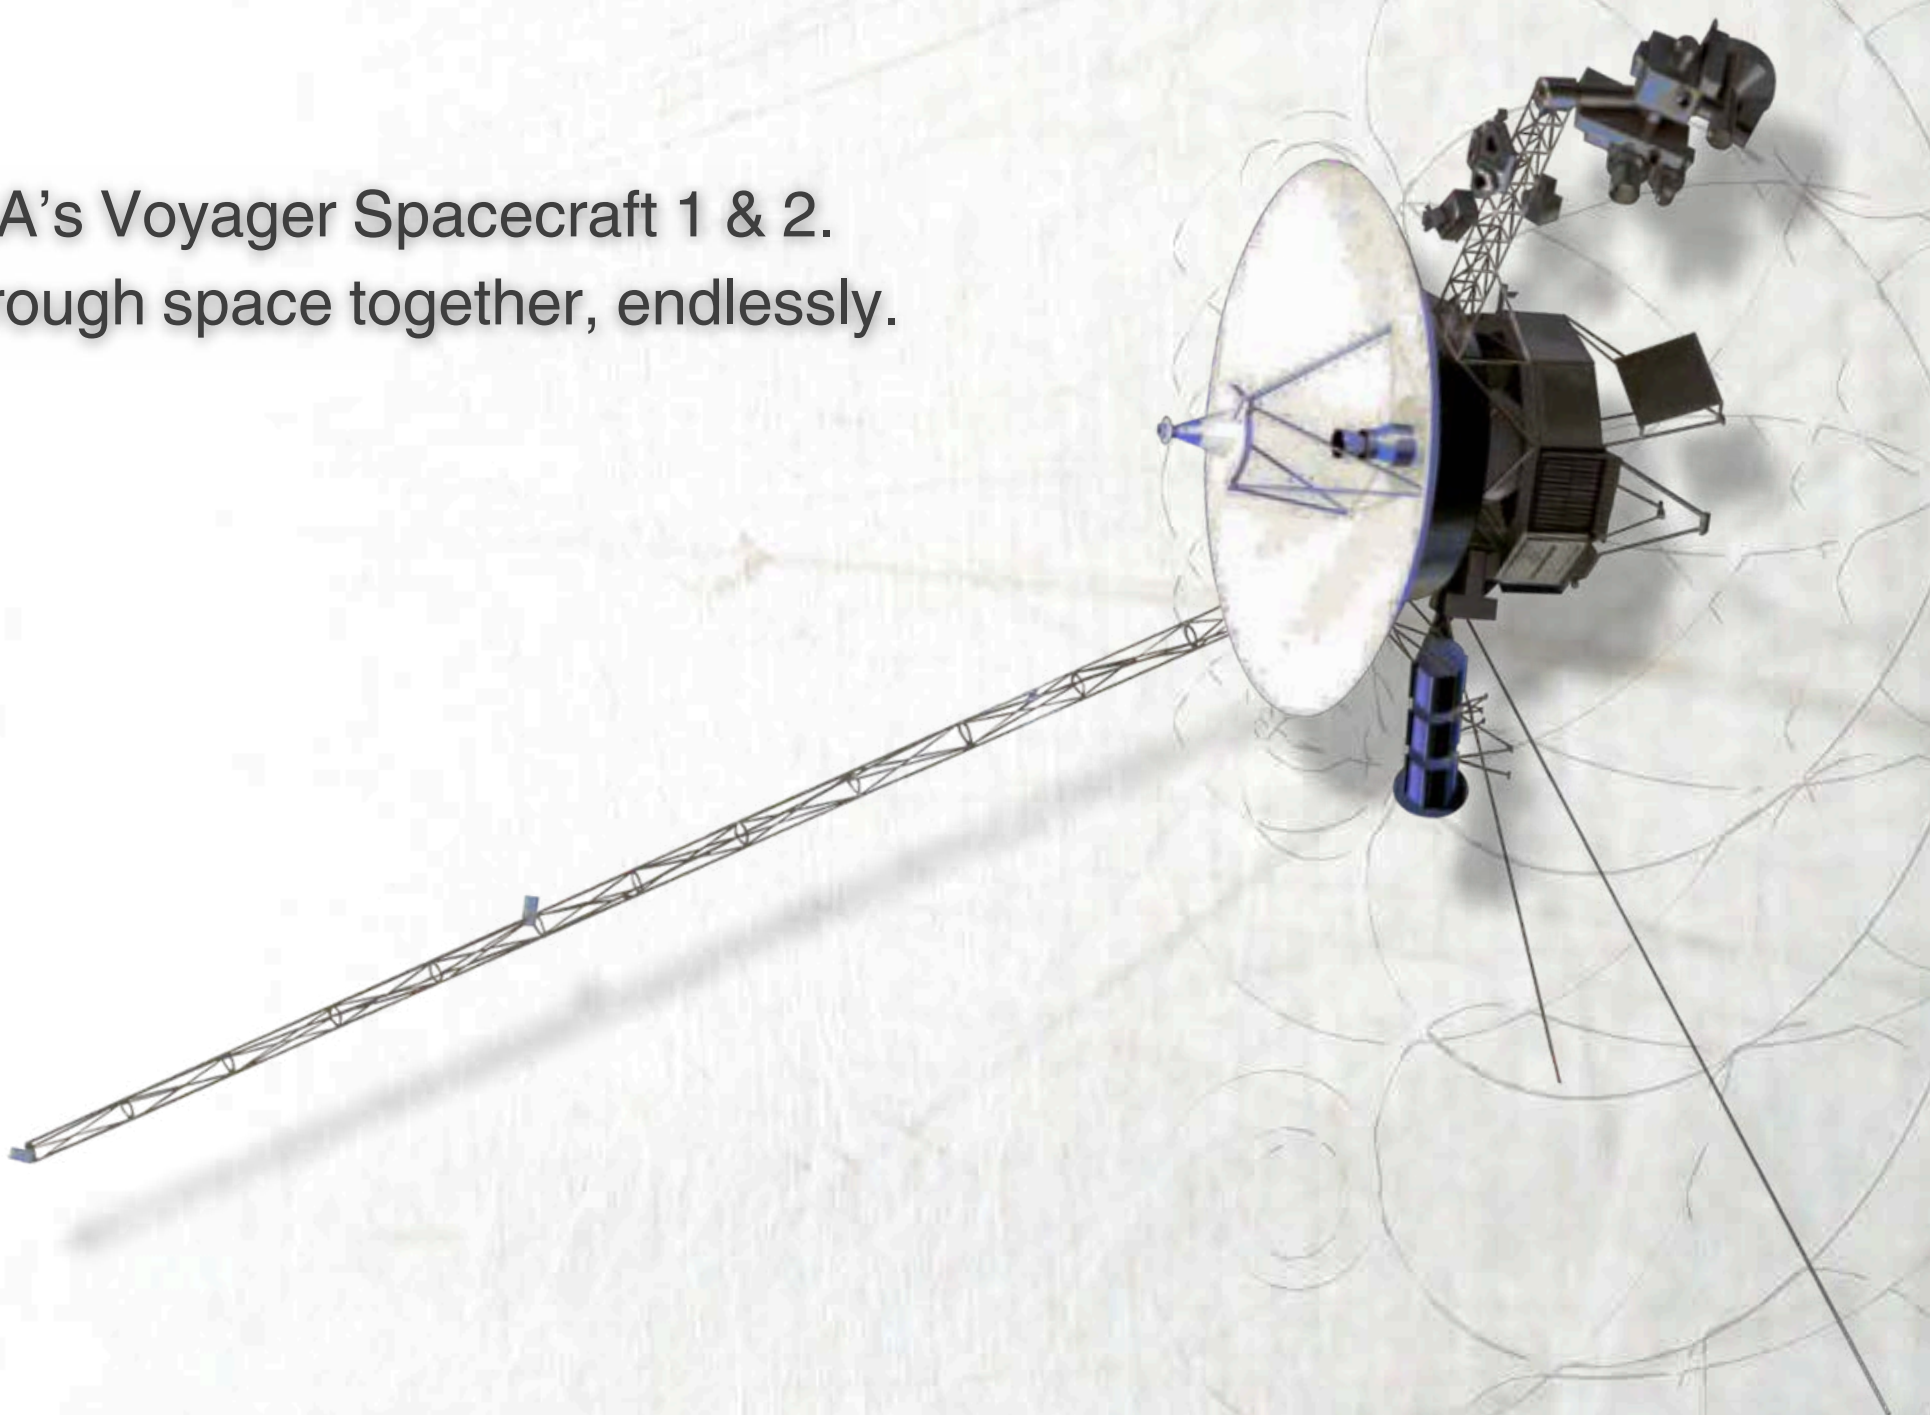

Cute face!

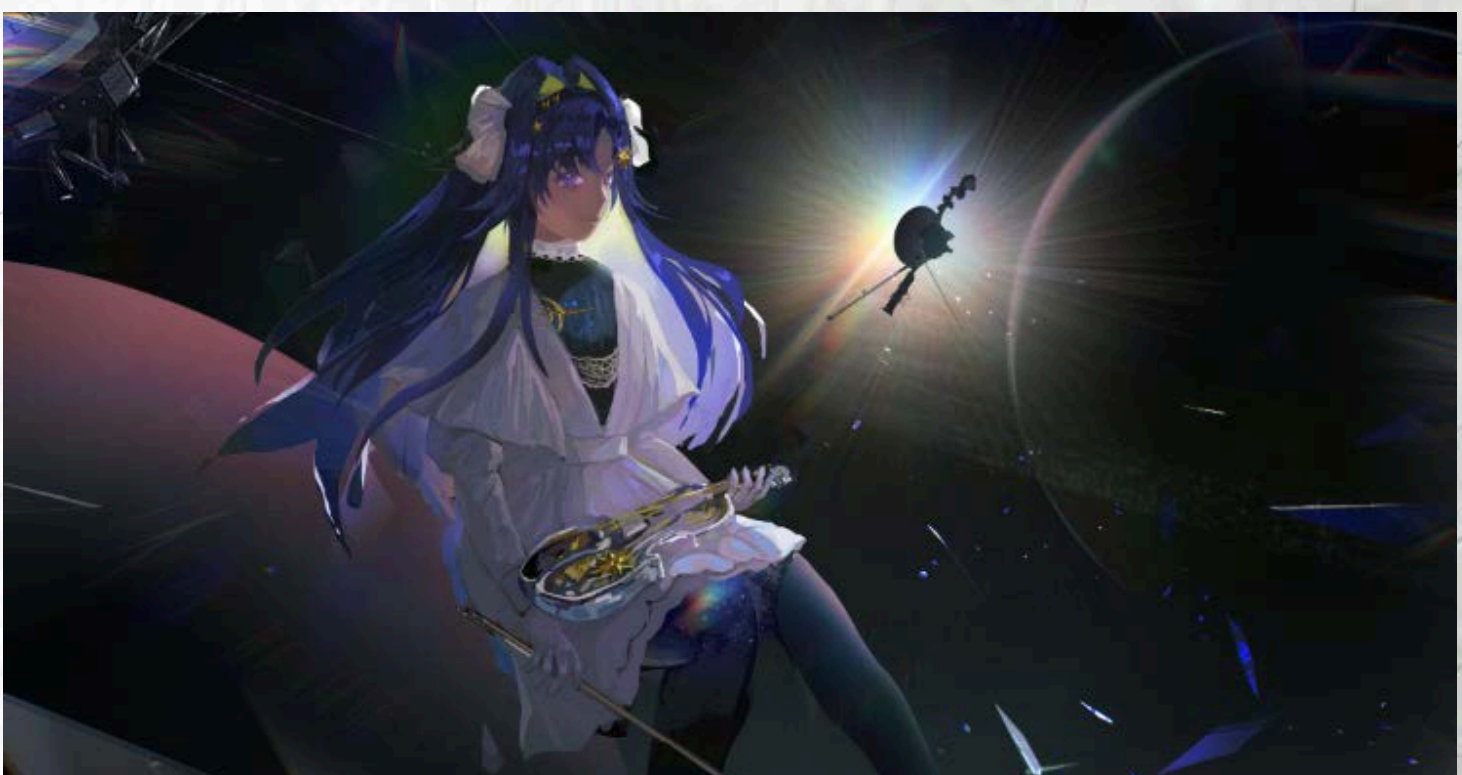

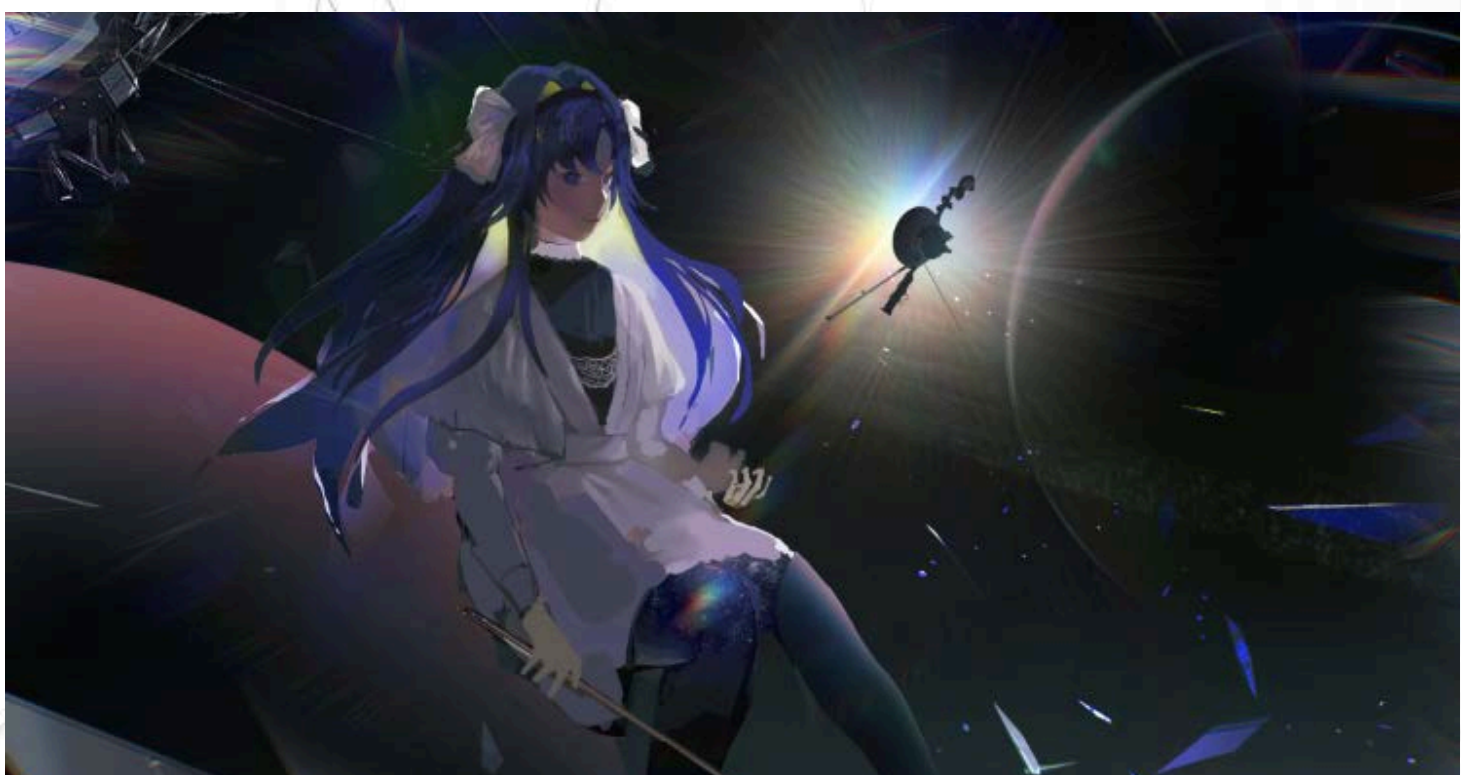

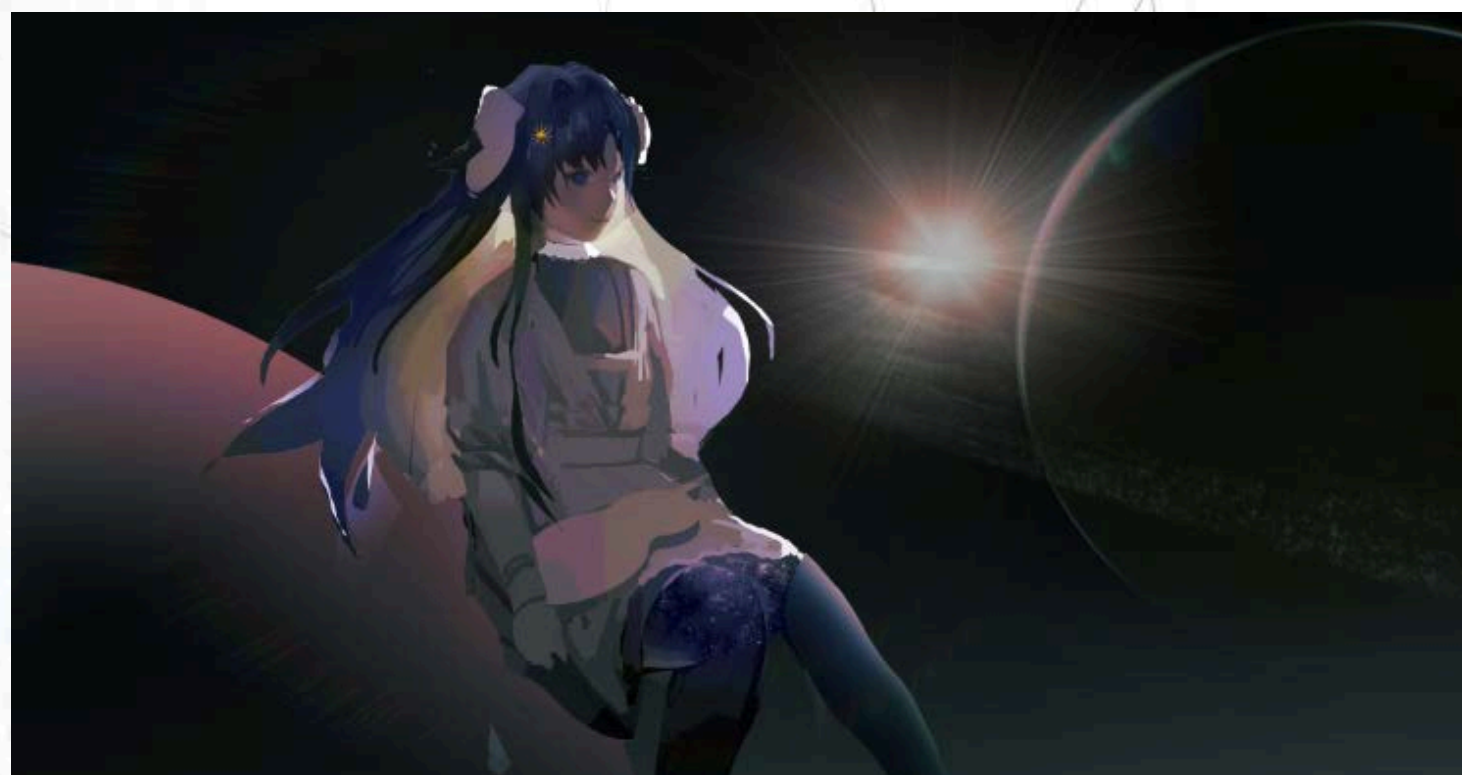

A violin with a clear glass body.
Such cool design.

The NASA's Voyager Spacecraft 1 & 2.
Floating through space together, endlessly.

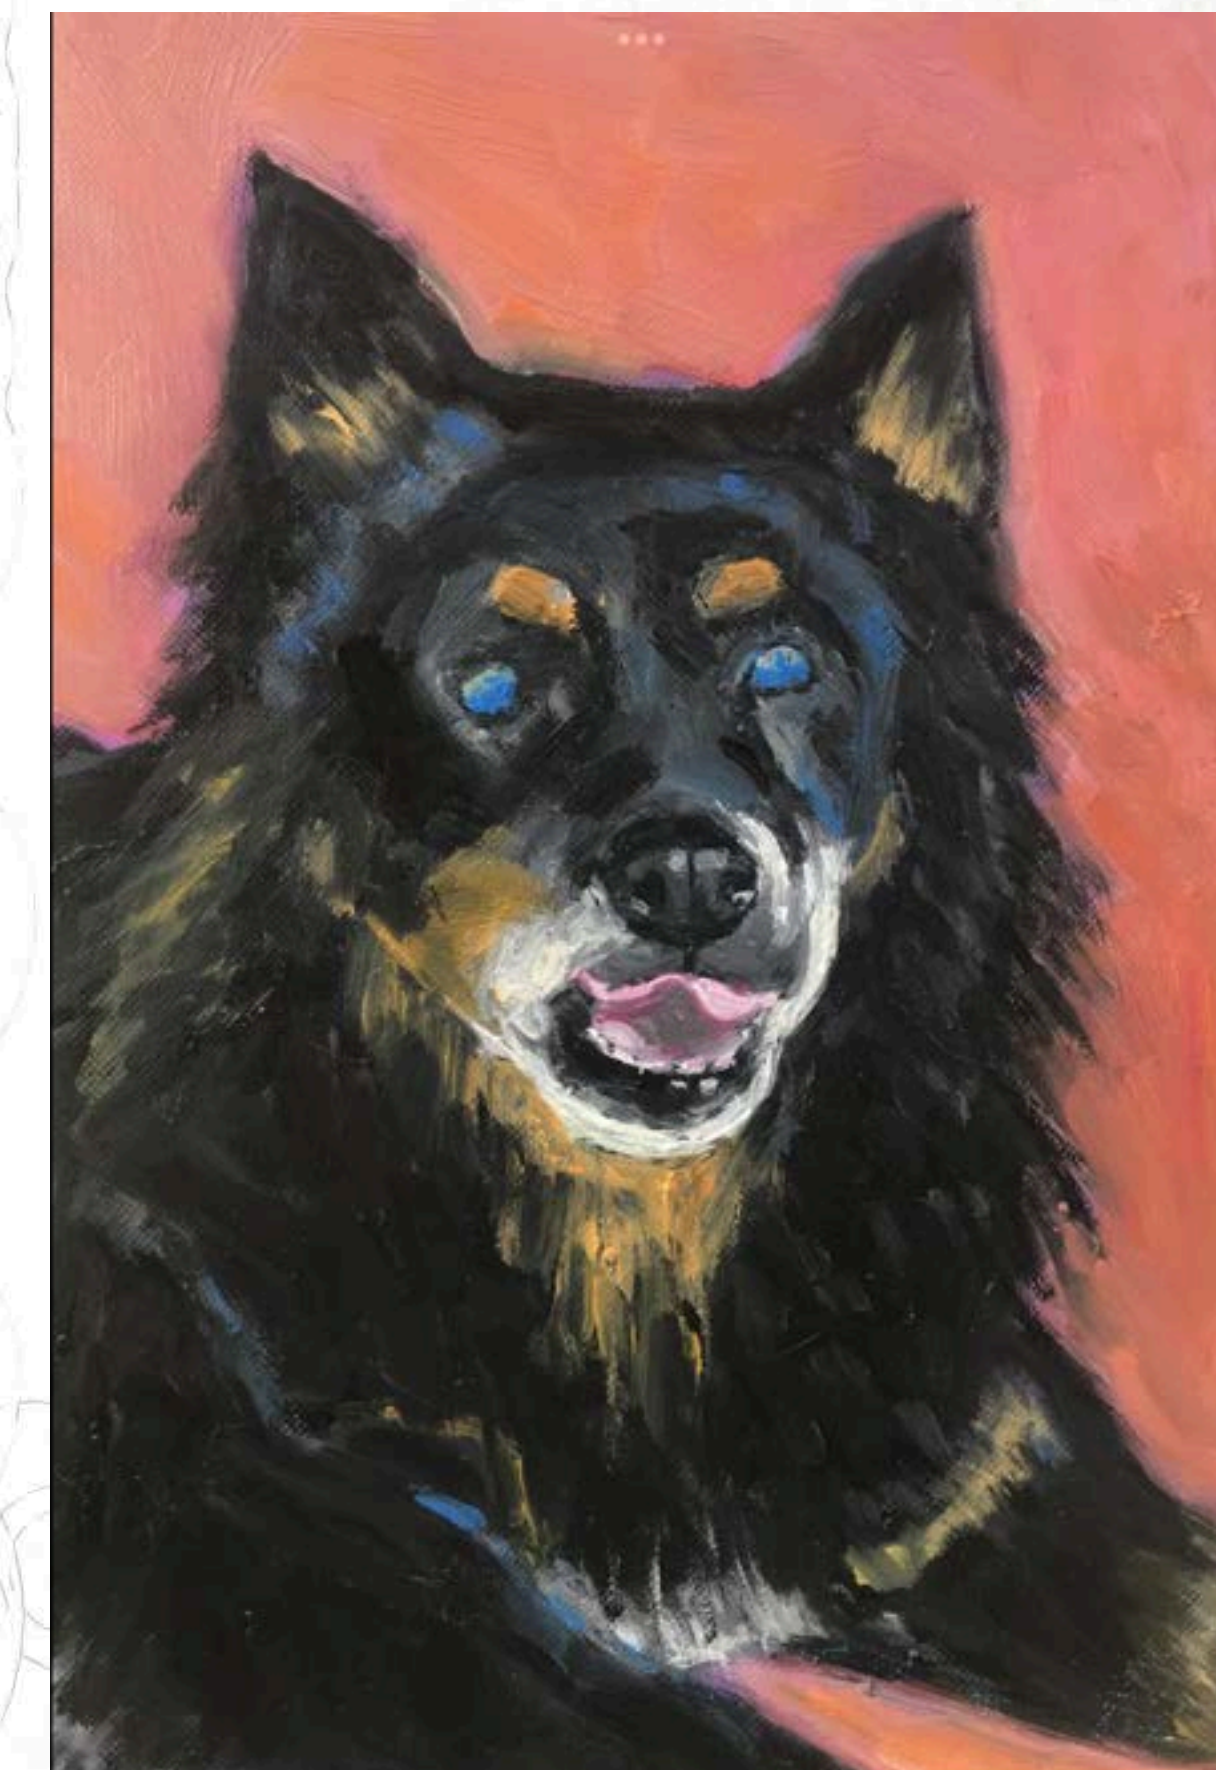

Painting process:

Pet Portraits (2023)

Works done for various clients.
Acrylic on canvas and paper.

*F*igure sketches (2022)

Live sketches during Long Hai Trip.
Ink on paper.
